

### 3.4 Supplementary Figure 4: Fitting curves to assess the correlations between T-cell count and their MM and their MMP.

**A.** Correlation between the MM of CD3+ cells and the raw CD3+ cell count; **B.** Correlation between the MMP of CD3+ cells and the raw CD3+ cell count. **C.** Correlation between the MM of CD4+ T cells and the raw CD4+ T-cell count. **D.** Correlation between the MMP of CD4+ T cells and the raw CD4+ T-cell count. **E.** Correlation between the MM of CD8+ T cells and the raw CD8+ T-cell count. **F.** Correlation between the MMP of CD8+ T cells and the raw CD8+ T-cell count.

MM: mitochondrial mass; MMP: mitochondrial membrane potential.
