

3.8 Supplementary Figure 8: Time-dependent ROC curves to predict ACLF of the MMP of CD8+ T cells combined with traditional models.

A. Time-dependent ROC curves of the MMP of CD8+ T cells to predict ACLF. **B.** Time-dependent ROC curves of CTP score to predict ACLF. **C.** Time-dependent ROC curves of MELD score to predict ACLF. **D.** Time-dependent ROC curves of CTP score combined with the MMP of CD8+ T cells to predict ACLF. **E.** Time-dependent ROC curves of MELD score combined with the MMP of CD8+ T cells to predict ACLF.

ACLF: acute-on-chronic liver failure; ; MMP: mitochondrial membrane potential; MELD: Model for end-stage liver disease.
