

投稿常见退回情况分析

陈华崇

武汉美捷登生物科技有限公司

SCI 论文第一次投稿后常见的情况除了修回、拒稿,还有一种情况就是退回。关于杂志退回,有些杂志很快,投稿1-2 天后就会完成初筛,不符合要求的就会被退回;而有些杂志处理相对偏慢,等你收到退回邮件的时候也许已经过了1个月了。所以投稿之前一定要认真地看杂志稿约,尽量按照杂志要求提供投稿内容。

今天我们就来为大家梳理一下常见退回的情况:

一、稿约和系统要求不一致

1. BMC系列期刊

最近 BMC 将 Research article 类型从 Editorial Manager 投稿系统搬到了nature.com,其余的文稿类型目前依旧留在 Editorial Manager,虽然拆分成了两个系统,但是稿约依旧沿袭以前的链接,我们收集了一些 Research article 在 nature.com 退回的原因:

 Corresponding uncropped full-length gels and blot should be included in the supplementary information.

关于这条需要说明的是,但凡是文稿中有凝胶 图的都需要提供原图,这个原图需要放在 word 里面,原图的上方需要有文稿的题目和作者姓 名,最后提交的时候需要另存成 PDF, 上传在

DOI: 10.14218/MRP.2021.006

通讯作者: 陈华蓉 Email: rociamj@163.com

- other 模块而不能放在 Supplementary materials 下面,因为补充材料需要在正文有对应的引用。
- 2. Any manuscript involving research on animals wherein In-vivo experiments are conducted must confirm that all experiments were performed in accordance with relevant guidelines and regulations. Kindly provide following requirements:
 - A statement to confirm that all methods were carried out in accordance with relevant guidelines and regulations.
 - ② A statement confirming the study was carried out in compliance with the ARRIVE guidelines.

以前 BMC 涉及到动物只需要在材料方法部分标明 The study was approved by Ethics Committee of XXX,现在不一样了,必须写明 The study was approved by Ethics Committee of XXX, all methods were carried out in accordance with relevant guidelines and regulations. This study was carried out in compliance with the ARRIVE guidelines.

2. Wiley旗下的杂志The International Journal of Imaging Systems and Technology

这个是关于一个影像学方面的杂志,存在着稿 约和系统对于文献格式的要求不一致,所以投这个 杂志的作者为了避免退回一定留意。

【聚焦期刊】

杂志稿约要求 APA 格式 (American Psychological Association): This journal uses APA reference style; as the journal offers Free Format submission, however, this is for information only and you do not need to format the references in your article. This will instead be taken care of by the typesetter.

但是系统强制要求 Vancouver (numbered): Please ensure that your referencing style is Vancouver (numbered) as it is necessary.

二、稿约要求特别细致

希腊系统(SPANDIDOS PUBLICATIONS)代表 杂志 International Journal of Oncology, International Journal of Molecular Medicine, Oncology Report, Molecular Medicine Reports, Oncology Letters, Experimental and Therapeutic Medicine。对图片格式要求特 别苛刻,经常会以各种原因退回,我们罗列了一些图 片退回的原因, 如果考虑投稿这些杂志, 建议认真查 看图片要求, 做图的时候就规避这些问题。

For all figures

- > Please label both axes.
- > Labels must be sharp and clearly legible (including exponential numbers around figure axis) NOT blurry, fuzzy, faded or broken.
- > Please use the same font for all Figures for consistency. Either use Arial or Times New Roman.

- The font size of the labels must be 8-10 point when figures are saved at the correct size (8 or 17 cm at 300 dpi/inch).
- A space must be inserted before measurements: 132 bp NOT 132bp, 5 mm NOT 5mm, 1 h NOT 1h.
- > The first letter of each phrase, NOT each word, must be capitalized [e.g., 'Overall survival (months)' not 'Overall Survival (Months)' and not 'overall survival (months)].
- \triangleright micro: μ , μ (available in Times and Helvetica) NOT u.
- ➤ liter(s): correct spelling: 1 NOT L.

三、其他常见退回情况

- 1. 杂志社要求注明作者贡献,作者贡献里面的作 者贡献描述不符合作者要求;
- 2. 文稿正文字数、图表个数、参考文献条数不符 合要求:
- 3. 伦理学批件、知情同意、临床注册、伦理学批 件和临床注册需要在人员招募之前;
- 4. 参考文献格式不符合要求;
- 5. Double blind 需要去掉所有的作者单位信息;
- 6. 页码行号的添加,以及页码行号添加的位置。 当然不同的杂志对于以上内容要求不一样,对 于这些常见的退回情况,我们看稿约的时候多留意, 就可以避免不必要的踩雷。

SCI期刊常见的投稿系统界面及特点

韩莹

文章选定目标杂志并调整好格式,准备投稿了, 不同的杂志投稿系统有着不同的特点, 在这里主要给

大家介绍7种SCI期刊常见的投稿系统界面及各自 的特点。
